- **Introduction**

I'm a BCA/MCA graduate with a strong passion for web development. I specialize in full stack development and enjoy building innovative solutions that make a real difference. I'm always eager to learn new technologies, take on challenges, and grow both personally and professionally in the tech world.

- **Education**

MES Institute of Management & Career Courses (MCA), Pune

Pursuing Master of Computer Applications (MCA) from MES Institute of Management and Career Courses, with an expected graduation in 2026. Successfully completed the first year with a CGPA of 8.89.

HVPM Amravati, (BCA)

Graduated with a Bachelor of Computer Application (BCA) from HVPM College, Amravati, with a CGPA of 6.68.

- **Skills**

Skilled – HTML/CSS/JS.

Intermediate – MERN (MongoDB, React, Node), SQL, Python, Java, PHP.

Basic – Tailwind.

- **Projects**

Art Platform

(HTML/CSS , MERN Stack)

Developed a full-stack web application for buying and selling artwork, featuring user authentication, dedicated dashboards for artists and buyers, artwork uploads, category-based search, and a review system. Emphasized a clean, responsive design to deliver a smooth and intuitive browsing experience. The platform enables artists to easily showcase their work and engage with potential buyers.

Stock Prediction Website

(HTML/CSS/JavaScript, MERN, Python, AI/ML)

Built a web-based platform that helps users predict stock prices based on historical trends using machine learning. Included features like user login, personalized watchlists, and real-time data updates. Focused on creating a clean and modern interface that's easy to use across devices, while the backend handled user data and predictions efficiently.
